Wow your audience with stunning digital signage

Strong WiFi connectivity

The display features a dual band, high gain antenna for a strong WiFi connection.

Choice of screen size

Select from a 21" or 27" screen to suit your requirements.

700 nits high brightness

With a rating of 700 nits brightness your signage will be crystal clear even in bright locations such as retail stores with a lot of artificial lighting.

Exceptional longevity

With an impressive 50,000+ hour lifespan, enjoy stunning visual displays for years, saving you time, money, and hassle while maintaining consistent performance.

Anti-glare toughened glass

The toughened glass is resistant to glare from natural and artificial lighting and is designed to withstand damage in public environments.

Seamless wall integration

Our display mounts flush against any wall, transforming your digital signage into elegant wall art that attracts attention without protruding into your space.

Cellular data upgrade

Upgrade to 4G cellular sim card for environments for when WiFi or Ethernet is not favourable or available.

Portrait or landscape orientation

Mount the display in either orientation depending on your content and preferences.

Touch or non-touch

Choose a passive non-touch display for advertising and signage or an interactive PCAP touch screen.

Captivating digital displays which drive results

Transform your indoor space with the Muro Canvas, an elegantly designed digital signage display that captivates audiences, drives foot traffic, and creates meaningful customer engagement.

This versatile solution mounts flush against walls and enhances retail stores, shopping malls, restaurants, universities, and various commercial environments, delivering your message with stunning visual impact that converts viewers into customers.

Touch screen

The optional PCAP touch screen offers interactivity for your audience, perfect for information points. They'll be able to interact with your signage in a memorable way - a benefit which traditional print signage cannot offer you.

Built-in Android

Run your content or application in minutes using the embedded Android SoC - with no additional PC or digital signage player required. Alternatively, you can connect your own mini PC via HDMI in and house this externally, such as behind the wall or in the ceiling.

Optional CMS

Control your digital signage content remotely from any device with an internet connection by subscribing to our cloud-based digital signage system. Create new messages quickly with the drag-and-drop content builder and publish live on your displays in seconds.

Robust components

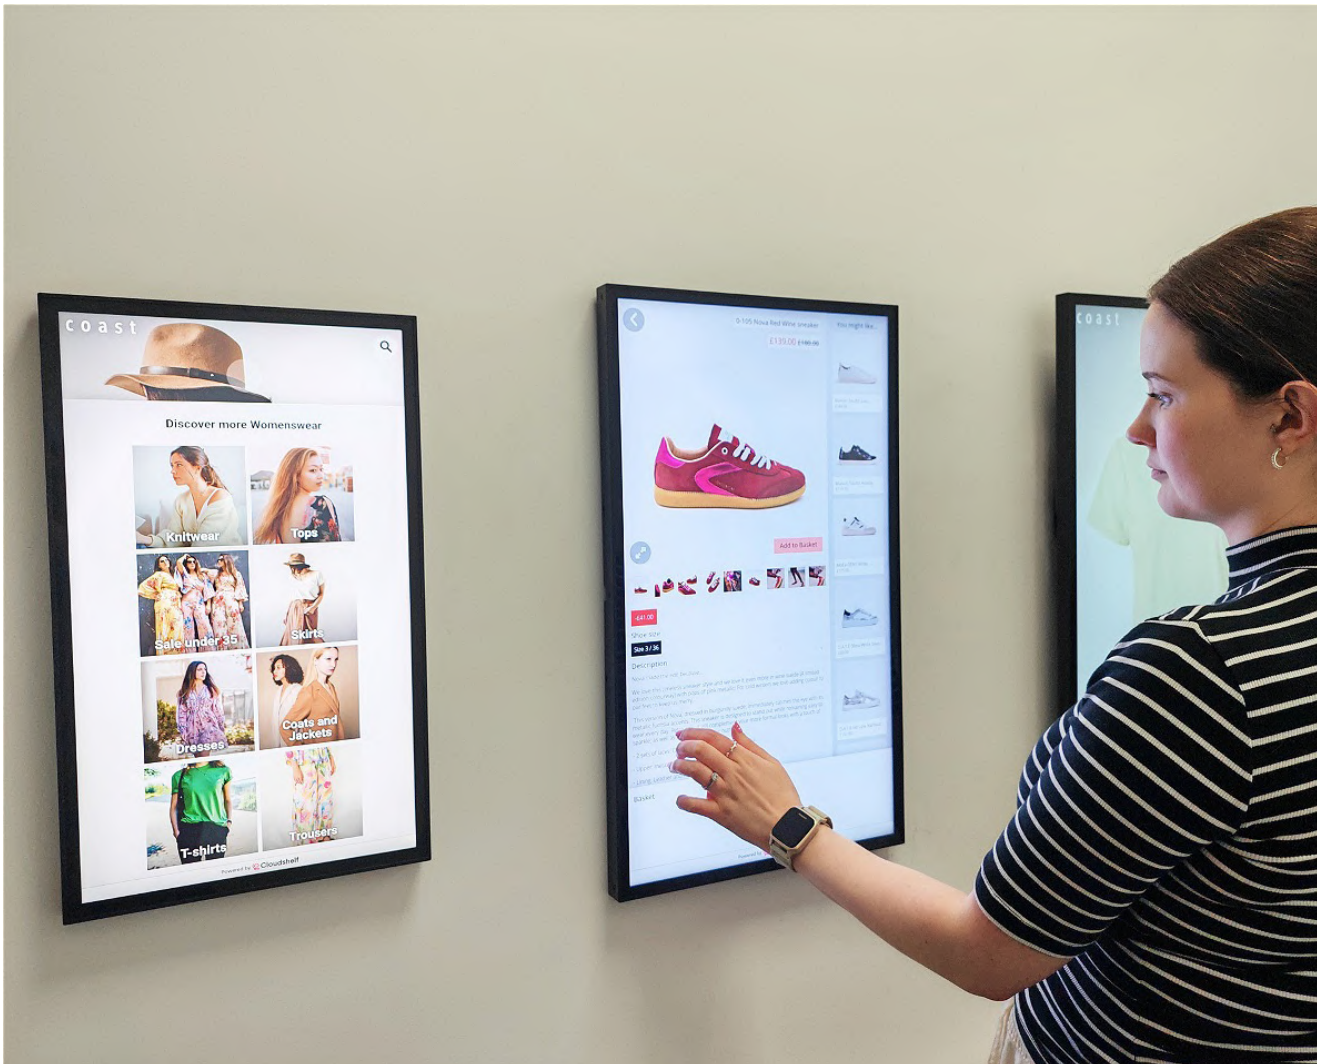

Manufactured to the highest standards with commercial-grade components, the Muro Canvas is designed to run seamlessly 24/7 with an average lifespan of over 50,000 hours.

3-year warranty

The Muro Canvas display is provided with a standard 3-year warranty included for your peace of mind.
