in f 

Overview

Sleek integrated ceiling mount

The integrated mounting mechanism ensures your display hangs securely without interrupting the sophisticated design.

Built-in media player

Run your signage application using the built-in Android player, or upgrade to an Intel player (Windows/Linux)

43" screen

Full HD resolution display in 43" dimension.

Double-sided display

Maximise your advertising by reaching customers both outside and inside your store.

High brightness

Commercial-grade high brightness 700cd/m² panels for the outward-facing display ensure content is readable in sunlight with a 700cd/m² inward-facing display for indoors.

Slim 2.5cm design

With a total thickness of only 2.5 cm, the display has a sleek and slim profile comparable with a single-sided screen.

Digital signage that doesn't sleep

The Muro Window is a double-sided hanging window display designed for digital signage in a range of environments including retail stores, shopping malls, estate agents, showrooms, cafes, restaurants and hotels.

Built to run 24/7, these displays will increase your advertising reach at all times of the day. During opening hours you will have double the impact, increasing footfall by reaching those outside your store and driving sales and engagement with customers inside your store. With the Muro Window your digital signage does not sleep - it will continue to inform and influence passerbys when your store is closed.

High resolution

The full HD resolution display with high contrast and a 24-bit true colour depth delivers crystal clear image and video quality.

Plug and play

Connect power and download your content via USB to get your display up and running quickly. Upgrade to our cloud-based digital signage system to manage your displays remotely and update content in real-time.

3-year warranty

The Muro Window is provided with a standard 3-year warranty included for your peace of mind.

Built to last

Manufactured to the highest standards with commercial-grade components, the displays are designed to run 24/7 with a long lifespan of over 50,000 continuous hours.

Cost-effective

A cost-effective alternative to separate indoor and outdoor displays to increase the impact of your advertising campaigns.
