in f X

Wow your audience with sleek digital signage

Strong WiFi connectivity

The wall poster features a dual band, high gain antenna for a strong WiFi connection.

Camera and microphone

Choose to add our Versi camera and microphone module for audience analytics, customer service or entertainment applications.

Choice of screen size

Select from a 32", 43" or 55" screen to suit your requirements.

700 nits high brightness

With a rating of 700 nits brightness your signage will be crystal clear even in bright locations such as retail stores with a lot of artificial lighting.

Ultra slim bezel

Measuring at just 13.6 mm, the frame around the screen is the slimmest on the market, ensuring no distractions from your content.

Anti-glare toughened glass

The toughened glass is resistant to glare from natural and artificial lighting and is designed to withstand damage in public environments.

Touch or non-touch

Choose a passive non-touch display for advertising and signage or an interactive PCAP touch screen.

Maximise brand awareness

The display features a space designed for you to add a custom vinyl wrap of your logo or brand name.

Versatile for touch and non-touch applications

Tamper-proof design

Poster frame covers all ports from tampering in public environments.

Simple install

The digital wall poster is easily installed using the built-in fixings, with no other mount required.

Connect a mini PC

For applications that require a Linux/Windows PC, connect your own NUC PC with HDMI in. Mount your PC bracket neatly out of sight using the VESA mounting holes (75x75 mm or 100x100 mm).

PC holder for larger PCs

If you require a more powerful graphics card, simply add our Versi PC holder using the integrated fixings to mount your PC neatly inside the digital poster frame.

Plug and play

Play your content via USB stick or run your application from the integrated Android 11 SoC.

Auto power

In case of power cuts and outages the display will automatically power on when the power is re-instated.

Connect accessories

With 6 USB ports you can easily connect accessories such as printers and payment terminals. Power an accessory directly from the built-in DC power port (subject to required power consumption).

Increase customer engagement and sales

The Versi indoor wall mount poster is a sleek digital signage display that will boost your advertising reach, increase footfall and engage your customers. It is ideal for a range of environments including retail stores, shopping malls, restaurants, universities and more.

Touch screen

The PCAP touch screen model offers interactivity for your audience, perfect for information points. They'll be able to interact with your signage in a memorable way - a benefit which traditional print signage cannot offer you.

Plug and play

Run your content or application in minutes using the embedded Android SoC. Alternatively, connect your own mini PC easily with a VESA mount or mount a more powerful PC with the Versi PC holder. Power your PC from the built-in DC power port with no additional power provision required (subject to required power consumption).

Optional CMS

Control your digital signage remotely from any device with an internet connection by subscribing to our cloud-based digital signage system. Create new messages quickly with the drag-and-drop content builder and publish live on your displays in seconds.

Connect accessories

Boasting 6 USB ports, the Versi suits a range of requirements, allowing expansion with accessories e.g. printer, payment terminal etc. Power a USB module from the built-in DC power port with no additional power provision required (subject to required power consumption).

Customise your display

The Versi is suitable for installation in a range of enclosures and can be easily adapted for custom projects including self-service screens with payment modules. Contact us to discuss your requirements.

Robust components

Manufactured to the highest standards with commercial-grade components, the Versi is designed to run seamlessly 24/7 with an average lifespan of over 50,000 hours.

3-year warranty

The Versi indoor wall mount poster is provided with a standard 3-year warranty included for your peace of mind.

Camera and microphone module

Complete your digital wall poster with our HD camera and microphone module, perfect for:

- Audience and engagement measurement
- Customer service and AI applications e.g. customer help points using direct call connections
- Entertainment applications e.g. selfie and interactive AR photo booths

Adapt the camera angle easily from the top of the display using the adjustment wheels to set the best angle for your environment. The advanced facial recognition sensor ensures the user is in focus even when there is bad visibility conditions in the background, such as glare and backlight.

The advanced noise cancelling and echo cancelling microphones reduce background noise and maximise the voice level of the individual engaging with the display.

Specifications

Model	Versi Indoor Wall Mount Digital Poster
